

Portable Dispensing System

ECOgent General Purpose Cleaner

Using ECOgent General Purpose Cleaner

ECOgent is best used by holding the sprayer 6 to 8 inches from the surface when spraying then wiping the surface with the supplied micro fiber cloth dampened

with fresh water. We recommend that you rinse out your micro fiber cloth with fresh warm water several times when cleaning and use the Blue micro fiber on toilets and urinals. Micro fiber cloths can be cleaned with normal laundry facilities and will provide months of continual use. Avoid bleach and fabric softeners when laundering as this may cause the cloth to lose effectiveness.

How to use your ECOgent Portable Dispensing System:

Step - 1 Fill the supplied water bottle with fresh tap water.

Step - 2 Slide the water bottle tube into the water bottle (located directly below the sprayer pull trigger) and lock the bottle into place.

Step - 3 Slide the ECOgent concentrate tube into the ECOgent concentrate bottle and lock into place.

Step - 4 Turn the adjustable dial to position (5) on the dial and pull the trigger 2 to 3 times to prime the sprayer.

Step - 5 Turn the adjustable dial to the desired setting.

DIAL SETTINGS

Light Duty Cleaning (0 to 1)

- **Dial setting 0 (64:1 Dilution)** - Glass, Mirrors, Computer Monitor Screens & Key Boards, Telephones, Stainless Steel, Treated Copper and Brass, Vinyl, Acrylic, Plastics

Medium Duty Cleaning (2 to 4)

- **Dial setting 2 (44:1 Dilution)** - Wet Cleanable Upholstery Spotting, Carpet Spotting
- **Dial setting 3 (28:1 Dilution)** - Maintained Toilet Bowls and Urinals, Washroom Ceramic Walls, Acrylic Bath Tubs, Shower Surrounds, Polystyrene Tubs and Whirlpools, Porcelain Tubs
- **Dial setting 4 (18:1 Dilution)** - Soap Scum, Grout, Garbage Cans

Heavy Duty Cleaning (5)

- **Dial setting 5 (10:1)** - Greasy Floors, Hard Water Deposits (mild), Heavily Soiled Toilet Bowls and Urinals

ECOgent is an excellent floor cleaner when mixed at ½ ounce to 1-gallon cold water and can be used in mop & bucket systems as well as automatic scrubbers on VCT floors. When mixed properly ECOgent will not harm expensive floor finishes or dull the finishes found on wood and stone floors.

Portable Dispensing System

ECOgent General Purpose Cleaner

ECOgent General Purpose Cleaner

cleans like no other product in the industry. A truly safe cleaner derived from 100% sustainable resources. ECOgent GPC is Green Seal Certified, and is the only product that exceeds all GS-37 requirements. ECOgent is non-toxic to human and aquatic life and is completely biodegradable aerobically and anaerobically.

Our ECOgent Portable Dispensing System eliminates the need for multiple task bottles and bulky wall mounted closet dispensers, one spray bottle for all of your light, medium or heavy-duty cleaning requirements. The sprayer automatically mixes and dispenses the correct amount of the ECOgent GPC for your cleaning task with every spray. Our ECOgent concentrate bottle easily re-fills from an available 2.5-gallon square container with a non-drip fill spout that fits on any shelf in your chemical closet, saving you time, space and money.

The economy of concentrates with the accuracy of dilution control all in one sprayer providing an effective clean that is safe for human use and the environment.

CONVENIENT

- Automatic mixing of water and concentrate.
- Water bottle can be filled from any fresh water source.
- Concentrated product reduces trips to the supply closet.
- Easy to use – minimal training required.

EFFECTIVE

- Independently tested to clean as well as national brand all-purpose cleaners.
- Patented concentrated cleaning technology.
- Long-lasting sprayer tested for up to a half million squeezes.

ECONOMICAL

- One 11-ounce concentrate bottle yields up to 65 bottles of ready-to-use cleaner.
- Will not dispense concentrate when water bottle is empty.
- More cost effective than ready-to-use cleaners.
- Reduced storage and labor costs.
- Refillable concentrate bottle reduces disposal costs.

SAFE

- ECOgent does not contain petrochemicals, EDTA, NTA, dyes, synthetic perfumes, pesticides, peroxides, mutagens, carcinogens or preservatives.
- Certified for use around individuals with chemical hypersensitivities and people who suffer from asthma.
- Non-toxic to humans or aquatic life.
- VOC content less than .05% in concentrate.
- Does not generate toxic compounds.

ECOgent has been certified by:

Green Seal (GS37), meeting the environmental standard for industrial and institutional cleaners based on its reduced human and aquatic toxicity and reduced smog production potential.

Environment Canada's Environmental Choice Program Criteria PRC-097, "Cleaning Products with Low Potential for Environmental Illness and Endocrine Disruption".

The *Envirodesic*™ Certification Program, as a sustainable low-emission cleaning product with minimal environmental impact that is suitable for use by and around asthmatics and those who suffer from chemical hypersensitivity.

The European Union's Eco-label: The Flower - the premier European award for products meeting higher environmental standards.

ECOgent is patented under U.S. patent 6,432,395 "Cleaning Composition Containing Naturally Derived Components".
